## ABOUT NEIL

To any outsider, D. Neil Elliott was highly educated, owned a profitable consulting firm, and had a successful career and an amazing wife and family. But things were not all they seemed to be ... Neil was facing a lot of challenges. In a phrase, he was in a dark place. Quite by accident, he discovered a Higher Road. As he traveled that road, he found the key to transforming his life.

Over the course of the following year, Neil lifted himself to an inner state of love, peace, joy, and abundance. His perspectives on life changed entirely. His troubles and tribulations were his impetus to find the key that enabled him to revolutionize his life. He learned that the search for a better life does not entail positive thinking, saying affirmations, chanting mantras, or traveling to India to sit at the feet of a guru—or any other popularized method of “finding yourself.” ...The key? To ascend in both spiritual perception and truth, you need to use the right process to break through your entrenched, human-ego barriers.

For nearly three decades, Neil read hundreds of self-help and spiritual books and took self-development courses. All of them offered hope for change and improvement, but nothing fulfilled his needs or genuinely delivered on its promises.

Neil’s desire—and his new mission in life—is to share the knowledge he gained and the process he used on his journey to self-awareness, together with the blueprint document he discovered that was instrumental in transforming his life. He wants to give you, regardless of your station in life, the tools and opportunity to empower yourself, transform your life, and draw peace, joy, love, and prosperity into your personal situation and environment. Neil believes that as more and more people follow this Higher Road to true spiritual perfection, a New Era of Love and Peace will dawn for everyone throughout the world.

## ABOUT THE BOOK

**Open your mind and consider new perspectives about life.**

Regardless of your current situation or challenges—whether you are poor or wealthy, ill or healthy, happy or depressed—you can find a path to a brighter, fulfilling future.

In this groundbreaking book, D. Neil Elliott outlines how you can achieve your life's purpose, heal your body and mind, and draw happiness into your life. The unique tools and strategies he offers will help you attain peace, joy, and abundance and discover your true purpose in life. This book brings together scientific discoveries and spiritual concepts and explains the Truth of our Existence in a factual, rational, and engaging way.

At age fifty-seven, Neil was depressed, anxious, and fearful. He felt trapped ... there was no way out. Searching desperately for a sliver of hope, a reason to keep going, he found a Higher Road. More accurately, it found him—and as he traveled that road, he discovered a seven-step process that transformed his life.

*A Higher Road: Cleanse Your Consciousness to Transcend the Ego and Ascend Spiritually* reveals secrets hidden since the beginning of creation that enabled Neil to transform himself—mind, emotions, and body, to experience the *Reality* behind and within all things — giving, maintaining and sustaining all individual being. Now, in this book, he guides you through a process that will help you achieve the best possible outcomes for your life.

# A HIGHER ROAD

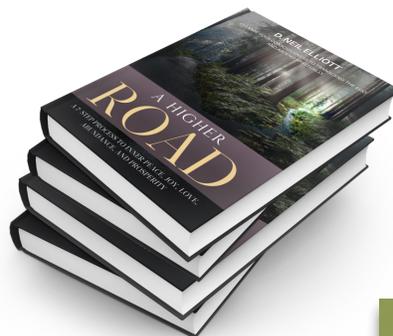

Neil's book begins with a memoir of his early years—and shows how his life experience pushed him to the edge. He uses his life story to illustrate how, *through the use of our creative consciousness tools, each of us creates our every tomorrow*. He expands on concepts of personal consciousness and the mechanisms of how each of us is unknowingly impacting our individual and collective lives, creating our current turbulent and destructive global reality.

Next, the book reviews scientific works on memetics, biology, epigenetics, neuroplasticity, and neurogenesis, to emphasize how scientific discoveries and the repercussions of science's "*mind over matter*" paradigms affect our daily lives. To assist us in understanding the concept of self, consciousness, and life, Neil shares a vivid description of a Near-Death Experiencer's afterlife vision that shows clearly what happens to us when we die. Then, he moves on to share with us the revelatory blueprint document that inspired him to take a Higher Road. This manuscript held the key to his personal transformation.

In this easy-to-understand book you will learn:

- The Secrets of Existence and Our True Spiritual Origins.
- New knowledge that bridges the gulf between the Unseen Spiritual Dimension and the Seen World of 'Matter' that will enable science to move forward into new realms of spiritual/scientific research for the betterment of humankind.
- What your tools of creativity are, and how you use them moment by moment to create every tomorrow, every experience, and every circumstance that comes into your life. You cannot escape this process; it is a law of existence.
- How to ascend in spiritual consciousness, free yourself from the treadmill of life's ups and downs, and enter an inner state of everlasting peace, joy, love, abundance, and prosperity that is more rewarding than you ever dreamed possible.

By completing all *Seven Steps* as outlined, you will have knowledge that will enable you—with effort, determination, and dedication—to transform your life.
